Filter Window (filtwin)

Filter window (filtwin) is a graphical user interface (GUI) that facilitates the filtering of Chandra data. Tools launched from filtwin use the current file and filter (in the form of a virtual file) as input. The GUI is launched automatically by firstlook when needed, but may also be started from the command line:

```
unix% filtwin
```

The Chandra X-Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
60 Garden Street, Cambridge, MA 02138 USA.
