

Analysis Guides

Since the number of CIAO Science Threads is always increasing, there is a great demand for a roadmap on how to apply them to the data. The Analysis Guides presented here were written for that purpose.

Each guide takes a certain instrument configuration (ACIS, for example) or type of analysis (e.g., extended sources) and lists the relevant threads. Along with the listing is a brief explanation of the purpose of each task. The goal is to help the user complete the analysis without requiring that every thread be read.

[ACIS](#) | [HRC](#) | [Miscellaneous](#)

ACIS

- [ACIS Data Preparation](#) **UPDATED** (01 Dec 2006)

HRC

- [HRC Data Preparation](#) **UPDATED** (01 Dec 2006)
- [HRC Imaging](#)

Miscellaneous

- [Extended Sources](#)
- [High Resolution Spectroscopy](#)

The Chandra X-Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
