ChaRT Documentation

Various documents are available that explain how ChaRT works and why it ought to be used. There is also information about point spread functions (PSFs) and the PSF libraries.

There is a separate page which lists ChaRT References.

General ChaRT | PSFs and the PSF Libraries | Miscellaneous

General ChaRT

- About ChaRT – detailed description of SAOsac and other components of ChaRT
- ChaRT bugs

PSFs and the PSF Libraries

- Why use ChaRT instead of the PSF libraries?
- Point Spread Function – definition of a PSF, including Chandra-specific details
- PSF Libraries – links to the PSF manual and simulated PSF examples
- PSF Library Caveats

Miscellaneous

- Chandra/CIAO Dictionary

The Chandra X-ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
