

AHELP for CIAO 3.4

assoc_key_exists

Context: [slangrtl](#)

Jump to: [Description](#) [See Also](#)

Synopsis

Check to see whether a key exists in an Associative Array

Syntax

```
Integer_Type assoc_key_exists (Assoc_Type a, String_Type k)
```

Description

The `assoc_key_exists` function may be used to determine whether or not a specified key `k` exists in an associative array `a`. It returns 1 if the key exists, or 0 if it does not.
