AHELP for CIAO 3.4   **skip**   Context: chips

Jump to: Description Example Bugs See Also

Synopsis

Skips the designated number of lines from subsequent input files.

Syntax

```
chips> SKIP <skip_value>
```

Description

All files plotted after this command is issued will have the specified number of lines skipped.

Example

```
chips> SKIP 10
chips> CURVE data/exampleB.dat
```

The command SKIP 10 causes the first ten lines of the data file data/exampleB.dat to be skipped when it is read in and plotted.

Bugs

See the bugs page for ChIPS on the CIAO website for an up−to−date listing of known bugs.
