Synopsis

IR/optical/UV extinction from Cardelli et al. (1989). XSpec model.

Description

IR/optical/UV extinction from Cardelli et al. (1989, ApJ, 345, 245). The transmission is set to unity short-ward of the Lyman limit. This is incorrect physically but does allow the model to be used in combination with an X-ray photoelectric absorption model such as phabs.
